PROJECTS

School Blog Website
school's academic vice principal

📅 2025 summer 📍 Iran, Rasht

- Developed a blog website for the school's academic vice principal with backend user auth (registration, login, password change/reset), email notifications, and multimedia blog creation (audio, images, text).

Advanced Chatbot Platform
Personal Project

📅 2025 summer 📍 Iran, Rasht

- Built a chatbot website (10+ pages) with user ops (reg, login), custom Gemini API prompts, and admin chat monitoring/banning for violations.

Multilingual Chatbot Site
Personal Project

📅 2025 summer 📍 Iran, Rasht

- Built a multilingual (10 languages) frontend-only chatbot site (5+ pages), without user ops for simplicity and ease.

Telegram Agent
Personal Project

📅 2025 summer 📍 Iran, Rasht

- Engineered a Telegram agent for full account control with customized unique/varied responses to messages; built an accompanying admin panel website for management.

Gemini-Integrated Chatbot with Email
**Personal Project**

📅 2025 summer 📍 Iran, Rasht

- Designed a chatbot connected to Gemini with internet access capabilities (limited by free API plan); integrated with my email to send messages to specified recipients, built using n8n for automation.

Housing Ads Telegram Bot
Personal Project

📅 2025 summer 📍 Iran, Rasht

Web Development · AI Development · AI Prompting · SQL/MySQL · Django · Flutter · Full-stack Developer · UI/UX · Git GitHub · Deployment · Python · Photoshop · Arduino · CapCut · Excel · Video Editing · Image Editing

Hard-working · Self-learning · Open-Minded · Leadership · Teamwork · Flexible Schedule · Lifelong-Learner

LANGUAGES

Persian(native) ● ● ● ● ●

English(B1) ● ● ◑ ○ ○

EDUCATION

12th-grade Student
Dr. Ali Shariati High School

📅 From 2021 to present in Mathematics and Physics

Arduino Thermometer Project
Personal Project

📅 2023 summer   📍 Iran, Rasht

- Engineered a thermometer using breadboard, LCD, LM35 temperature sensor, and RGB LED; changes LED color based on temperature and displays readings in Celsius and Fahrenheit.

Arduino Distance Measurement Project
Personal Project

📅 2023 summer   📍 Iran, Rasht

- Created a distance measurement project with breadboard, LCD, and ultrasonic sensor; calculates and displays distance in inches and centimeters by sending waves that bounce off objects.

- Created a Telegram bot that fetches housing ads from a specific site based on categories and city names, delivering complete details directly without needing to visit the site; supports over 10 housing ad categories.

Personal Landing Page
Personal Project

📅 2025 spring   📍 Iran, Rasht

- Developed a simple landing page website to introduce myself and showcase my resume.

Flutter Chatbot and Games App
Personal Project

📅 2025 summer   📍 Iran, Rasht

- Built a basic Flutter app functioning as a chatbot with multiple games, including Tetris, Tic-Tac-Toe (XO), memory game, snake game, and more.

Telegram Group Content Generator
Personal Project

📅 2025 summer   📍 Iran, Rasht

- Implemented an automation bot for Telegram groups using Make, which generates content from any specified website upon joining the group.

Persian Chatbot Website
Personal Project

📅 2025 summer   📍 Iran, Rasht

- Created another chatbot website with a unique design, fully in Persian, featuring a user-friendly admin panel for ease of management.

Teacher Grading System
School project

📅 2022 winter   📍 Iran, Rasht

- Developed a website with backend where teachers log in to assign grades to students; restricted editing access to teachers only, preventing changes by students or unauthorized users.

Anonymous Teacher Feedback Platform
School project

📅 2022 autumn   📍 Iran, Rasht

- Built a project listing all students' names, allowing anonymous rating and feedback for teachers.
